

What you must do to get covered care

2025 Blue Cross and Blue Shield Service Benefit Plan - FEP Blue Focus

Section 3. How You Get Care

What you must do to get covered care

What you must do to get covered care

You must use Preferred providers in order to receive benefits, except under the situations listed below. In addition, we must approve certain types of care in advance. Please refer to Section 4, *Your Costs for Covered Services*, for related benefits information.

Exceptions:

1. Medical emergency or accidental injury care in a hospital emergency room and related ambulance transport as described in Section 5(d), *Emergency Services/Accidents*;
2. Professional care provided at Preferred facilities by Non-preferred radiologists, anesthesiologists, certified registered nurse anesthetists (CRNAs), pathologists, neonatologists, emergency room physicians, and assistant surgeons;
3. Laboratory and pathology services, X-rays, and diagnostic tests billed by Non-preferred laboratories, radiologists, and outpatient facilities;
4. Services of assistant surgeons;
5. Care received outside the United States, Puerto Rico, and the U.S. Virgin Islands; or
6. Special provider access situations, other than those described above. We encourage you to contact your Local Plan for more information in these types of situations before you receive services from a Non-preferred provider.

Unless otherwise noted in Section 5, when services are covered as an exception for Non-preferred provider care, you are responsible for the applicable coinsurance or copayment, and may also be responsible for any difference between our allowance and the billed amount.
